Grant Administration Assistance
Scientific & Socio-Economic Analysis

FEMA RESTORING COMMUNITIES

Regulatory Approvals & Filings
Environmental Investigations,
Program Management
Monitoring & Reporting

Camas has been a leading provider of environmental services across the United States for over 20 years. We are dedicated to providing our clients a combination of the most relevant environmental science expertise with an experienced understanding of the regulatory and permitting requirements under which all projects must operate. Our team works in a cost and time efficient manner while delivering high quality products and solutions.

Camas has a breadth of knowledge in HUD grant implementation. We have worked with personnel within all tiers of government to provide Responsible Entities with cost efficient solutions that comply with NEPA standards. Camas, LLC provides preliminary environmental assessments, such as Phase I ESA's, wetland delineations, noise assessments, stormwater, environmental justice, and endangered species consultations. We trust that sound preliminary assessments provide the Responsible Entity the necessary firm ground to begin their NEPA process, whether the project be Exempt or requires an Environmental Impact Statement.

Camas has extensive knowledge of the FEMA and Emergency Services regulatory filings requirements arena to obtain approvals for construction, maintenance, and reliability reporting for rebuilding communities swiftly. Rebuilding requires complying with the local, state, and federal rules which is a core specialty for Camas. Our experience has enabled us to be highly effective within all governmental departments to rebuild communities. We can assist from the top tier of program management to the on the ground presence obtaining working directly with victims and local governments to obtain all necessary approvals in time and cost-sensitive manner. We bring to all situations a sound administration process to ensure audit compliance with restoration funds through a comprehensive tracking system for rapid reporting.

Camas, LLC has made it possible for more than eight HUD funded projects to complete the NEPA process in the last year, and without their support only a fraction of these affordable housing projects would have been able to proceed in a timely manner. Without Camas, acquisition of properties would have been lost, construction costs increased, and leverage of large development projects, jeopardized. Camas has a solid understanding of the HUD NEPA requirements which results in a work product the Responsible Entity can efficiently review and ultimately proceed to a Request for Release of Funds.
